5TH INTERNATIONAL CONGRESS FOR JOINT  
RECONSTRUCTION MIDDLE EAST 2016

Dear Colleague,

It is with great pleasure and honor that I welcome you this year to the 5th International Congress for Joint Reconstruction - Middle East.

This meeting has been growing steadily throughout the past few years and we are expanding the scope of the meeting. This year we have added a full day dedicated program for Physiotherapy and also another full day program for Orthopaedic Nursing.

Alongside the program, we are conducting multiple cadaver courses to enrich the experience outcome for our attendees.

We have also widened the scope of our lecture coverage

Our aim is to enrich throughout your clinical experience with this meeting and welcome your valued participation and feedback.

**Dr. Samih Tarabichi**

Chairman – ICJR Middle East

Consultant Orthopedic Surgeon

Director General - Burjeel Hospital for Advanced Surgery, Dubai
